Susac Day Münster 2016

Meeting for patients with Susac syndrome
Friday, 20 May 2016, 9.00 a.m. – 3.30 p.m.

in cooperation with

Invitation

Dear patients, dear friends and families,

Following on from the moving meeting in Florida in April 2015, we at the European Susac Consortium would also like to offer patients, their friends and families a day here to meet up and exchange views and experiences. New scientific discoveries and therapy options will be presented. However, getting to know other people and swapping stories in the breaks and in the Q&A sessions is also very important.

We look forward to seeing you in Münster for an informative and bonding meeting.

For the EuSaC,
Yours,

Univ.-Prof. Dr. med. Heinz Wiendl
Director of the Department of Neurology

Dr. med. Ilka Kleffner
Department of Neurology

Programme

Friday, 20. May 2016

- 9.00 a.m. Welcome
[Sven Meuth, Ilka Kleffner,](#)
